COMPLETE SOLUTIONS FOR HEALTHCARE

No one else in the industry combines the wide range of quality products and services with the “can-do” attitude of AmeriWater. Our goal is simple: to provide you with the very best products and services available. Check out the AmeriWater advantages and we think you’ll agree:

A PARTNER YOU CAN TRUST

- Free phone consultation
- 24/7 technical support from WQA-certified specialists
- Experienced engineers on staff
- In-house water testing lab

SUPERIOR PRODUCTS

- Designed by recognized experts
- Refined by customer feedback
- Best-in-class monitoring controls
- Precision electronic controls

CERTIFICATIONS:

- » ISO 13485/FDA Registration #1530185
- » ANSI/UL 61010-1
- » Seismic Approval #OPA-2202-07
- » CAN/CSA C22.2 No. 61010-1

MORE OPTIONS TO FIT YOUR NEEDS

- The widest selection of equipment in the industry
- Components and accessories
- Disinfection systems
- LAL and AAMI testing services
- A one-stop resource

EXPERTLY-DESIGNED HEALTH CARE WATER SYSTEMS

Health care facilities require water treatment for a variety of medical applications, each with its own unique standards and requirements. At AmeriWater, we understand these varying needs and have designed a range of water treatment systems specifically tailored to the needs of each healthcare application.

LABORATORY ULTRA-PURE WATER SYSTEMS

With reverse osmosis systems and deionizer packages that produce up to 18 meg ohm water quality, AmeriWater has the right ultra pure water system for your laboratory.

CENTRAL STERILE PROCESSING

Complete water treatment systems for central sterile processing from AmeriWater are designed to use a minimum of valuable floor space and provide high quality water for washing, rinsing and disinfecting.

SINGLE-SOURCE EFFICIENCY AND ECONOMY

AmeriWater's extensive range of health care solutions means you have a reliable single source for all your water treatment needs, saving you valuable time coordinating technical compatibilities between several suppliers.

SUPPORT FROM A NATIONAL SERVICE NETWORK

With a national network of authorized distributors, you get responsive, expert service for maintenance and troubleshooting.

INTEGRATED PRODUCTS MEAN FEWER MAINTENANCE HASSLES

AmeriWater offers a full suite of integrated products that streamline maintenance, reducing costs and downtime at your health care facility.

HIGH-PURITY WATER SYSTEMS THROUGHOUT THE HOSPITAL

BLOOD ANALYZERS

Using high quality water in your blood analyzer produces consistent results. AmeriWater offers a range of water treatment systems to meet your flow rate and volume requirements—along with your budget.

DIALYSIS

The MRO product line is perfect for dialysis applications ranging from single patient through multi stations. Each unit has everything you need to transform your tap water into dialysis-quality water.

GLASSWARE WASHING

Getting residue-free glassware is easy with water treatment from AmeriWater. A variety of reverse osmosis and deionizer systems are available based on your daily usage.

ENDOSCOPE REPROCESSING

Treated water for endoscope reprocessing reduces the risk of patient infection. AmeriWater offers water treatment systems that reduce bacteria, particulate and total dissolved solids for endoscope reprocessing and rinsing.

SERVICES AND SEMINARS

LAL Endotoxin Testing – The latest testing method available provides exact endotoxin levels with both positive and negative controls to ensure accurate results. Standard turn-around time is 48 hours, with 24 hours STAT available.

AAMI Analysis Testing – For tap and product water contaminants, you can count on our AAMI analysis testing to provide you with exact results compared to the standards for each contaminant. Results in 5 days with 36 hours STAT available.

Water Treatment Seminars – Approved for 6.5 contact hours, these seminars are excellent for technicians, nurses, administrators and physicians. Information includes everything you need to run a water treatment system from troubleshooting, proper design, monitoring schedules, meeting the standards, etc. Seminars are held at various locations across the United States. Call 800-535-5585 or visit Ameriwater.com for the seminar schedule.
