PRESS RELEASE

Highly-Effective and Chemical-Free Ozone Disinfection System from AmeriWater now FDA cleared

DAYTON, OH January 26, 2015 – The FDA has cleared AmeriWater's Ozone Disinfection System, a design that delivers economical, highly-effective and chemical-free ozone disinfection in a portable and easy-to-use unit.

Fast and Effective Disinfection—Without Chemicals
The system's high-tech corona discharge process produces aqueous ozone, the best disinfectant for bicarb and water systems because microorganisms cannot build up a tolerance to ozone. Creating high levels of ozone quickly and eliminating rinse and repeat cycles caused by chemicals, the system reduces disinfection time to under one hour.

Economical and Reliable Operation
AmeriWater's Ozone Disinfection System saves money by eliminating the need to purchase expensive, dangerous and hard-to-dispose chemicals. In addition, ozone has no detrimental effect on bicarb and water system components including PVC. Using oxygen eliminates nitrogen degradation of the ozone generator, ensuring years of reliable performance.

Portable and Easy to Use
Adjustable gauges quickly indicate the proper vacuum levels for mixing ozone and water. An ozone gas off chamber removes excess gas not dissolved in the water and runs it through an ozone gas destruct device, returning it to oxygen. Equipped with integral wheels, the portable and compact unit moves easily from bicarb to water systems or from center-to-center.

AmeriWater CEO Diane Dolan says, "The Ozone Disinfection System is the latest in our comprehensive line of solutions for dialysis water treatment to be approved by the FDA."

ABOUT AMERI WATER

AmeriWater is a premier provider of water treatment solutions for dialysis, healthcare and industrial applications. Established in 1995, AmeriWater is headquartered in Dayton, Ohio with regional distributors across the Western Hemisphere. In 2011, AmeriWater was acquired by Degremont.

DEGREMONT

A subsidiary of the SUEZ ENVIRONNEMENT group, Degrémont has been the world water treatment specialist for more than 70 years. Operating in more than 70 countries with over 5,000 employees, Degrémont generated revenues of €1,110 million in 2013.

SUEZ ENVIRONNEMENT

Natural resources are not infinite. Each day, SUEZ ENVIRONNEMENT (Paris: SEV, Brussels: SEVB) and its subsidiaries deal with the challenge of protecting resources by providing innovative solutions to industry and to millions of people. SUEZ ENVIRONNEMENT supplies drinking water to 92 million people, provides wastewater treatment services for 65 million people and collects the waste produced by 52 million people. SUEZ ENVIRONNEMENT has 79,550 employees and, with its presence on five continents, is a world leader exclusively dedicated to water and waste management services. SUEZ ENVIRONNEMENT generated total revenues of EUR 14.6 billion in 2013.
